

Marondera University of Agricultural Sciences and Technology (MUASt) is a modern and unique institution of higher learning established through an Act of Parliament (Chapter 25:29) in 2015. The University is driven by the vision to be a leading global centre of excellence in providing technology-driven, sustainable, green agricultural solutions. Underpinned by its core values, Excellence, Diversity, Innovation, Ethics, Ubuntu Sustainability and Integrity, the University aims to produce globally acceptable and competent graduates grounded in agricultural, entrepreneurial and technological skills through excellence in teaching, research, outreach, innovation and industrialisation.

Despite notable progress in its formative stages, as a new University the development remains constrained by insufficient resources which include but not limited to: student accommodation, transport for students and staff, staff accommodation, ICT equipment, sports facilities, utility vehicles, building materials, fencing materials, farm equipment, laboratory equipment, transport for senior staff and scholarships for deserving students from disadvantaged backgrounds.
